Re: **EM-VER-155-170201 – Cellco Partnership d/b/a Verizon Wireless
1358 New Britain Avenue, West Hartford, Connecticut**

Dear Ms. Bachman:

On February 22, 2017, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its existing telecommunications facility at 1358 New Britain Avenue in West Hartford, Connecticut. Cellco's modifications involved the replacement of antennas and remote radio heads.

As a condition of its approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to the exempt modification filing. Attached is a Professional Engineer's evaluation letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

RE: Tower Modification Certification

Project: Verizon Corbins Corner CT
1358 New Britain Ave., West Hartford, CT

Tower Owner: Crown Castle; BU #876324

Engineer: Paul J. Ford & Company

APT Project No.: CT1416090 Corbins Corner

CSC Exempt Mod Reference No.: EM-VER-155-170201

Dear Mr. Parks,

All-Points Technology Corporation, P.C. (APT) is providing this 'Tower Modification Certification' with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents:

- Review of Paul J. Ford & Company's Structural Analysis (PJF project #37516-3041.002.7700) dated 12/1/16;
- Review of Paul J. Ford & Company's tower modification drawings (PJF project #37516-3041.002.7700) dated 12/1/16; and
- Field Observations by APT personnel on 9/13/17 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis and tower modification drawings.

The structural analysis prepared by Paul J. Ford & Company demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution

Sincerely,
All-Points Technology Corporation, P.C.

Robert E. Adair, P.E.
Principal
